

Heads or *Tails*

TREASURE HUNT

Have you ever noticed how different fishes' heads and tails are? Here's a chance to take a closer look. You'll need a coin and this sheet. As you explore, stop at a tank and flip a coin. If it comes up heads, find a fish head that you like. If it comes up tails, choose a fish tail. Draw the head or tail you chose with as much detail as you can. At another tank, repeat the coin toss and drawing until you fill in all the boxes.

Now, choose one of the heads and one of the tails that you drew and use them to draw a whole new fish below. Don't forget to name your fish.

Write a story about your new fish. Where does it live? What does it eat? How does it swim? Is it speedy or slow? Are there any fish in the Aquarium that look like your new fish?
